Thank you for thinking of the animals, whether you're looking to organize a group supply drive, asking for gifts to the shelter in lieu of birthday or wedding gifts, or simply cleaning out your closets!

We've made some "green" changes to our supply wish list. **Dog and cat food is no longer a top need** because we're able to obtain **Science Diet** dog and cat food at a very special rate, in the exact formula the shelter pets need. Overall, this means our collective dollars go much further than they would with each person buying individually, **plus** together we save on gas and potential waste by having fresh supplies delivered as they are needed.

Many of the supplies we use often can be purchased by BAHS at a bulk rate much lower than individuals pay at retail, so cash donations are a great way to help the animals. Simply collecting loose change, having a "penny war", or holding a bake-sale are just a few great ways to make a group effort fun.

We know though that sometimes people enjoy doing the shopping on their own, and of course we absolutely appreciate all donations whether in-kind supplies and equipment or funds. The following is a list of items new and used that the animals need most!

- bleach
- hand sanitizer
- carpet cleaner
- paper towels
- clay cat litter (non-clumping)
- canned dog food
- kongs
- canned cat food - any!
- timothy hay
- chew blocks for small animals
- Carefresh* bedding (or pine, no cedar please)

Save the Earth!
Bulk purchases
mean less gas
and no waste

- toilet paper
- liquid dish soap
- liquid laundry detergent
- liquid hand soap
- scouring pads
- non-latex, powder free gloves
- scratching posts, towers & big cat toys

GREAT WAY TO RECYCLE: used items we can use:
blankets
towels
leashes
